

University of California Center Sacramento

CORDIALLY INVITES YOU TO

Global Warming And Climate Policy

With Dan Sperling, Professor, UC Davis; Director, Institute of Transportation Studies; Member, Air Resources Board

Dr. Sperling is recognized as a leading international expert on transportation technology assessment, energy and environmental aspects of transportation, and transportation policy. He has testified numerous times to the US Congress, California Legislature, and various government agencies, and provided keynote presentations and invited talks in recent years at international conferences in Asia, Europe, and North America. In the past 25 years, he has authored or co-authored over 200 technical papers and eight books. He is a recent member of ten

National Academies committees on Gasoline Taxes, Hydrogen, Transport in China, Biomass Fuels R&D, Sustainable Transportation, and others. He was founding chair of standing committees for the U.S. Transportation Research Board on Alternative Transportation Fuels (1989-'96), and Sustainability and Transportation (2006+). He serves on many advisory committees and advises senior executives of many automotive and energy companies, environmental groups, and national governments, including review committees at three DOE national laboratories.
